WHO I AM:

I am a junior full-stack developer with a strong passion for technology and its evolution. I consider myself a curious, adaptable person with a strong learning ability, always looking for new challenges to improve my skills and contribute with innovative solutions.

Currently, I am seeking my first job opportunity as a developer while continuing to specialize in full-stack development. My goal is to strengthen both my frontend and backend skills.

My background as a Programming Technician from Instituto Técnico Superior Teclab in Buenos Aires, along with several courses on platforms like Udemy, Academia X, and Devtalles, has allowed me to build a strong foundation in software development.

TECHNICAL SKILLS:

Frontend: HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, Bootstrap

Backend: Node.js, Express, C#, ASP.NET, Entity Framework, Prisma, Mongoose

Database: PostgreSQL, MySQL, MongoDB, SQLite, SQL Server, Redis

Tools: Git, GitHub, Docker, Postman, VS Code, Rider, IntelliJ IDEA, Trello

Methodologies: Scrum, Agile

Others: API REST, JWT, WebSockets, WebHooks, OAuth, UX/UI, Jest

Additional knowledge: Java, Python, C++, AWS, Azure

SOFT SKILLS:

Problem solving: Ability to analyze complex problems and find efficient solutions.

Adaptability: Skilled at working with new technologies and learning quickly.

Teamwork: Experience collaborating with designers, developers, and other professionals.

Autonomy and proactivity: Able to work independently while managing priorities effectively.

EXPERIENCE:

Full-Stack Developer – Medical Platform Project (2025)
I developed a full-stack application for managing medical services, implementing a scalable and secure architecture using modern technologies.

- Backend: Designed a REST API with Node.js, Express, and TypeScript, implementing JWT authentication, user and role management, data validation, and advanced error handling.
- Database: Integrated PostgreSQL with Prisma ORM, optimizing queries and ensuring data integrity.
- Frontend: Developed a dynamic user interface using React.js, TypeScript, Tailwind CSS, and ShadCN UI, with multilingual support via i18n.
- Appointment Management: Implemented the logic for bookings, modifications, and cancellations, ensuring a smooth user experience.
- Deploy: Configured the backend on Render and the frontend on Vercel, ensuring efficient integration between both parts of the application and optimizing the development environment with Docker.
- Plataform Link: https://anmamedical.vercel.app/

This experience allowed me to deepen my knowledge of best practices in software development, improving my skills in designing robust and maintainable applications.

EDUCATION:

2006 – 2011
IPEM 315 "José Hernández"
High School Diploma – Focus in Social Sciences

2013 – 2018
Conservatorio Superior de Música "Arturo Beruti"
Music Teacher

2019 – 2021
Universidad Tecnológica Nacional
Degree in Electronic Engineering (incomplete)

2022 – 2024
Istituto Tecnico Superiore Teclab
Degree: Programming Technician

COURSES:

TypeScript, JavaScript, Node, Basi di Dati SQL & NoSQL (Devtalles)

React & Node.js (Academia X)

HTML, CSS, JS (Udemy)

LANGUAGES:

Spanish: Native.

Italian: B2.

English: A2.
